ESTIMATOR INTERN AD

About A-STAR:

A-STAR Inc. was founded in 2001 and specializes in all roofing and siding projects. Being a part of the Cleveland Carpenter's union, we do mostly government and large commercial work. Examples of general contractors we work for are:

- Higley Construction
- Turner Construction
- Gilbane Construction
- John G. Johnson
- Infinity Construction
- Drake Construction
- Marous Brothers
- Regency
- Dunlop & Johnson
- Welty

We are employed by several other general contractors as well and often act as a general contractor ourselves on roof tear-offs and restorations.

A-STAR is located in Independence, OH. Our projects span a 60-mile radius around the office and in some instances our projects are located out of the radius. Some examples of ongoing projects are:

- St. Ignatius Back Quad: Turner Construction
- Akron Zoo Animal Hospital: Higley
- Lake County Airport: Marous Brothers
- Ridgewood Clubhouse: Higley
- Streetsboro City Hall: Cavanaugh

Estimator Intern:

The Estimator Intern position will work under myself (Nick Chirozzi) and the company Vice President (Eric Lapohn). The estimating software we use is called The Estimating Edge. This software will require extensive training for the first week or so of the position. Once the intern is comfortable, they will be responsible for doing takeoffs and pricing the bids. Bids are reviewed by myself and Eric and then sent to the general contractor. When we are bidding as a general contractor, the bid requires much more paperwork and nuances.

Here is a list of the work we most often bid on:

- Metal Roofing
- Flat Roofing (TPO, EPDM, Modified)
- Shingle Roofing
- Synthetic Slate
- Vinyl Siding
- Fiber Cement Siding
- Metal Wall Panels
- Engineered Wood Cladding

I will do my best to familiarize the intern with this type of work whether it be by visiting job sites or reviewing the products online.

Salary and Hours:

The pay rate for this position will be \$25.00/Hour. For summer internships, the hours will be 8 am – 4:30 pm M-F. If the internship is during the fall or spring semesters, hours can be accommodated to fit around class schedules. This position can go on through multiple semesters and summer. If we find you to be a good fit for the company, a salary position can be offered once your degree is completed.

If you have any questions or would like to send me your resume, please contact me via phone call or email below.

Sincerely,

Nicholas Chirozzi
